Bachelor of Science Degree Program
CEE offers an accredited Bachelor of Science (B.S.) degree in Civil Engineering and, jointly with Biological and Environmental Engineering, it also offers an accredited B.S. degree in Environmental Engineering. Within the Civil Engineering program students may choose to focus in one of several areas including Civil Infrastructure, Fluid Mechanics/Hydrology/Water Resources, Transportation Engineering and Environmental Engineering.

Master of Engineering Degree
The Master of Engineering Degree (M.Eng.) is a nine-month program which focuses on coursework and design issues in Geotechnical, Structural, Environmental, Environmental and Water Resource Systems, Transportation Systems Engineering and Engineering Management. Students participate in a group design of a real-life project. Students can also pursue an Engineering Management M.Eng. through an in-depth, real world group design project, and course content in management science, project management, decision and risk analytics, information technology, finance and accounting, systems analysis, and organizational behavior to become effective engineering managers.
