Bachelor of Science Degree Program

Students earn a Bachelor of Science (B.S.) degree. CS majors learn about algorithms, data structures, programming languages, scientific computing, systems, and theory, and just a few of the areas they can explore are artificial intelligence, computational biology, computer graphics, computer vision, databases, and networks. A wide variety of exciting professional and academic opportunities exist for graduates of computer science including software engineering, computational finance, modeling, game design, computer graphics, robotics, artificial intelligence, internet systems and technology, security, hardware development, animation, medicine, biotechnology, business management and consulting, as well as masters and doctoral studies in computing-related fields.

Master of Engineering Degree

The M.Eng. program in Computer Science is a one-year (two semester) professional development program designed to enhance professional skills in practical computer science. The program is particularly suited to students seeking advanced credentials for employment in industry.
